**Mersin,31,12,2018**

## **A-MACHINE PRICES**

**01-ROLL MESH WELDING MACHINE.....110.000USD FOB MERSİN**

**Brand: MESHMATIC**

**Type.....HKM10C03PR, AUTOMATIC**

**Technical properties:**

**Width of the productable mesh roll: max. 1000mm,**

**Line wires: max.78 pieces from spools, automatic**

**Diameter of the line wires: 0,8mm – 2,5mm**

**Space between line wires: min.13mm, max.25mm**

**Diameter of the cross wires: 0,8mm – 2,5mm**

**Space between cross wires: 13mm, 15mm, 20mm,25mm**

**Feeding of the cross wires : Automatic**

**Welding transformers: 3 x 60KVA, water cooled**

**Welding control electronics: 3 sets (individual each other)**

**Machine speed: 60 strokes per minute max.**

**Servomotor and inverters: Mitsubishi**

**PLC: Panasonic**

**Touch panel:Delta**

**Electrical components: Schneider**

**80 pieces empty wire spool include.**

**Operator manual: Turkish, English (French possible)**

**Maintance manual: Turkish, English (French possible)**

**Need of the line power: 100 kVA, 3x400 VAC +/-5%**

**Need of pressured air: 7 Bar, 1 cubic meter per minute, dry, clean**

**Need of the cooling water: 40 liters per minute, free of lime, neutral (we prefer chiller)**
